

## Reading:

The 'Parallel Text' series of short stories in both English and Spanish can be used to prepare to read fiction in Spanish; 'Short Stories in Spanish' also has a range of short stories and activities. These are widely available from online bookstores. Reading a book you know well in English in its Spanish translation can also help you prepare for the transition to A level – the 'Harry Potter' series is widely available, for example.

If you would like a challenge, you could read any of the set texts for Spanish A Level – even in translation. These are listed in the specification.
